EDUCATION

Campion School July 2022
Bhopal, Madhya Pradesh

SRM University — B.Tech, Computer Science September 2022 - Present
Kattankulathur, Tamil Nadu

PROJECTS

Jai Kisan | *Flutter, Firebase, Flask, TensorFlow, CNN, Scraping Tools* February 2024
- Worked with team to create **Jai Kisan**, an app which helps Indian Farmers by enhancing their profits of produce.
- DS Hack 2.0 : OnBoard Special: Special Mention
- HackNova : Selected For Final Round
- Ideathon : 2nd Prize
- github: https://github.com/Shivansh722/Jai-Kisan

The Pocket Money | *Flutter, Fast API, Supabase, Deep Learning* July 2024
- An innovative mobile application, Pocket Money, aimed at empowering India's youth (ages 16 to 25) by connecting them with part-time job opportunities. The app bridges the gap between students seeking financial independence and local businesses in need of a skilled workforce, including MSMEs and international companies.
- Foss Hack2024(Chennai): 3rd Prize
- github: https://github.com/Shivansh722/the_pocket_money

YouTube (Backend) | *MongoDB, ExpressJS, Node.js, Modeling Tools* March 2024
- A robust YouTube backend utilizing Mongoose, Express, and Node.js. Implementing scalable solutions for data modeling, API endpoints, and server-side logic to ensure seamless performance and reliability.
- github: https://github.com/rjk51/YT-Backend

Notes | *Flutter, MongoDB, ExpressJS, Node.js* January 2024
- Designed and developed a Flutter-based notes app with MongoDB backend integration. Leveraged Flutter for cross-platform compatibility and MongoDB for efficient data storage. Implemented features for creating, editing, and organizing notes, ensuring a seamless user experience across devices while maintaining data integrity on the backend.
- github: https://github.com/rjk51/NotesApp

TECHNICAL SKILLS

Languages : Dart, Swift, C/C++, JavaScript, Python
Frameworks : Flutter, NodeJS
Databases : SQL(MySQL), NoSQL

COURSES

Flutter & Dart | Udemy July 2023
DBMS Course | Scaler February 2024
Machine Learning Foundations | AWS Academy February 2024

VOLUNTEER EXPERIENCE

iOS Development Program August 2024 - present
Coding Ninjas | Head (App Developer) June 2024 - present
Dbug Labs | Associate Lead (App Developer) November 2023 - present
Aarush | Photographer December 2022 - April 2023

Soft Skills

- Capability to learn and grasp things quickly with positive attitude.

- Ambitious, adaptable, cooperative and people oriented.

- Highly organized, self-directed, detail oriented, a strong work ethic and demonstrated teamwork skills.

- Self-motivated, diligent, hardworking, firm, and energetic team player with high analytical and problem-solving skills. Skilled in proactive identification and resolution of critical issues.

Interests

- Learning And Exploring fundamental concepts of AI

- Working on Databases/Backend Development

- Developing Mobile Applications using Flutter And Swift

- Extra Co-curricular Activities like Reading, Music, Sports And Games
